” LONGING FOR CHANGE?

Dear customer,

To me, cooking is the palpable expression of an enjoyment of culinary pleasures which, I'm glad to say, is becoming increasingly established within society. Cooking is full of pleasures, it involves imagination, and it is communicative and relaxing – if the right kitchen tools are at hand. That is exactly where GEFU would like to intensify its efforts in the future and, according to our new motto **GEFU – Discover Culinary Artistry**, to encourage everybody to cook with ever-renewed inspiration. Whether fresh green cooking or home-made pasta is preferred, many of our well-thought-out and functional kitchen tools will shorten laborious phases of preparation, leaving the cook time for that essential element: the delightful discovery of the art of cooking!

Leafing through this catalogue you can find out how innovative our products are and how much focus we place on our customers and their needs. Anyone who has 'Lust auf Schneiden und Hobeln' or 'Leidenschaft für Anrichten und Servieren', for example, is sure to find everything from the rotary grater to the water carafe on pages 132 of our new "2016/17 Manual for the Art of Cooking"

Enter our product world and find manifold ideas to give you a taste for good sales!

So, be inspired!

Sincerely yours

Rudolf Schillheim (CEO),
GEFU Küchenboss GmbH & Co. KG

Bonkers for design?

”

AT GEFU, WE ARE ON THE LOOKOUT DAY BY DAY FOR PRACTICAL PRODUCT IDEAS
AND INNOVATIONS WHICH MAKE KITCHEN WORK EASIER.

At the same time, we focus on unique style and exquisite design for our functional kitchen tools. Our first step is to work out and sketch our ideas together with our designers. Shapes are selected, materials discussed and an initial prototype of the new kitchen tool is built. This must meet our high demands for function and design and go through all the necessary quality checks before it can finally be released for serial production and the kitchen tool can be included in our extensive GEFU range as a new product.

INVIVO

industrial design

They give our innovative product ideas the inimitable GEFU design: the INVIVO Design Team made up of Dennis Becker and Christoph Wiehle.

INVIVO have been working successfully in the fields of kitchen tools, electrical kitchen appliances, home accessories, table setting and lighting for years. The philosophy of the two graduate designers, Dennis Becker and Christoph Wiehle, is reflected in the team's name: "INVIVO" stands for vibrancy in the best sense of the word – uncomplicated and surprising.

This creativity and taking joy in innovation pays off: GEFU's products have frequently won renowned prizes for design such as the German Design Award, which was most recently given to the FORCE ONE potato, juice and spaetzle press.

CREATIVITY AND INNOVATIVENESS PAY.

Quality requirements?

Kitchen tools are used daily and expected to perform at top level all the time. So it is important that the blade is sharp, the spatula sits safe in the cook's hand and the mechanics are perfect. Just as they are in our GEFU products. This is the reason why GEFU has comprehensive quality management in place which includes internal and external tests on all products.

At GEFU, quality is monitored on a regular basis by the internal quality department.

INTERNAL QUALITY ASSURANCE: At GEFU, quality is monitored on a regular basis by the internal quality department.

EXTERNAL QUALITY ASSURANCE: "LGA tested" & "LGA tested quality": TÜV Rheinland carries out extensive tests for safety, performance characteristics, fitness for use and hygiene and awards these quality seals only

to products which meet the highest standards in every respect, including instructions for use, performance characteristics and safety, and which are totally suited to their purpose.

OUR DEMAND ON QUALITY: UP TO SAFETY, MEET HIGHEST STANDARDS.

GEFU-Q5 GUARANTEE: Product tests are carried out on a regular basis to check quality time and again and to optimize the products for the most ambitious requirements of modern cooking. GEFU guarantees such durability for all of its products through a 5-year guarantee. This is shown by the Q5 seal on the packing. A quality standard that pays off: nearly all GEFU products have won several awards, meaning that GEFU truly helps its customers choose and make decisions when buying high-grade, innovative and high-performing kitchen tools.

Enjoying success?

GEFU'S KITCHEN TOOLS STAND OUT FOR FUNCTIONALITY,
QUALITY AND DESIGN ...

... as is confirmed not just by a great number of satisfied customers but also by a wide variety of renowned prizes awarded to our products, including the German Design Award, the Red Dot Award and the KitchenInnovation of the Year® consumer award.

Spiral slicer SPIRELLI

GEFU's innovative strength was clearly confirmed in 2015 when the company was honoured as a "Top Innovator of the German Small Firm Sector".

The time-honoured awarding of the "Top 100" mark of quality is based on a two-stage process of scientific analysis studying how and with what success small and medium-sized enterprises manage innovation. In the "Top 100" GEFU scored especially high with its innovation management: customer focus is among our top priorities – from product development to sale.

” CURIOUS ABOUT CAPABILITIES?

It is important to us that not only our individual products are well thought out, but also whole themes covering a wide range of products serving a variety of purposes. Our approach is always customer-oriented, and the individual ranges are extended year after year. Our special themes have their own labels which help you navigate our products and make decisions: In the field of coffee, our GEFU coffee label distinguishes all articles which are indispensable these days for the enjoyment of highly aromatic coffee, such as coffee grinders, espresso makers, milk froth makers or decoration shakers. Our GEFU BBQ-Style label comprises everything to thrill the master of the grill, from the spice shaker to the grill tool set or the vegetable wok. INSPIRIA is our label for high-grade products related to serving food, denoting simple, elegant design from salad servers to a serving dish, and “La Linea” combines ergonomic and well-designed kitchen helpers from a tomato stem remover to a cheese slicer. You will also find us to be expert partners when it comes to the depth of our ranges. For most of our themes we offer several versions of each product to suit our customers’ specific needs.

Explore the diversity of our products on the following pages.

CHOPPING · Cutting spirals

Spiral slicer SPIRALFIX

The spiral slicer SPIRALFIX is the indispensable kitchen tool for every vegetable fan. Based on the time-tested principle of the pencil sharpener, it transforms countless sorts of vegetables into delicious vegetable spaghetti, without effort and in no time at all. Using it is simple, convenient and extremely safe: Just open the folding lid, use the adjusting wheel to set the desired width of cut and place the vegetables in the box. Now close the lid, turn the crank handle (pressing down gently), and the desired vegetable spirals fall into the non-slip holding container. The long spirals can be produced with ease because two high-strength special knives made of blade steel work together perfectly in the box. The best part of it is that the two knives are able to cut the vegetables into spirals almost without any waste.

13410
exclusive

IAVIVO
Industrial design

- 4 different widths of cut for creative recipes: Spiral cut across the entire width of the material, 3 mm, 6 mm or 12 mm wide adjustable via adjusting wheel

Coffee press PABLO

16190
exclusive

9 cups – 1000 ml / 1.76 pints

Combining stainless steel, glass and plastic, the coffee press makes a pretty picture on any coffee table and conjures up three different quantities of delicious, freshly brewed coffee.

The coffee is made with the usual press system: the boiling hot water is poured directly onto the ground coffee. Coffee and water are left to brew and the coffee grounds are then pressed down using the integrated filter. Use the coffee press directly as a coffee pot and enjoy the highly aromatic coffee.

- Ideal for preparing strong, aromatic coffee
- Coffee maker and coffee pot in one
- Pouring spout
- High-grade stainless steel, borosilicate glass, plastic
- Dishwasher-safe

Party burger press SPARK

The party burger maker gives an ideal shape to finger-food burger patties– whether vegetarian or with meat.

- perfectly shaped 60g party burgers
- 2-piece set: mould and press
- ridged pattern thanks to the furrows in the press
- base with central elevation to dimple patties for shape retention during frying
- dia. 7.8 cm (3.07 in), H 8 cm (3.15 in)
- high-grade stainless steel / porcelain
- dishwasher-safe

This mini party burger maker fills delicious finger-food burgers. To make vegetarian patties (with polenta, buckwheat or spelt dough) or classic meat patties, the mixture is put into the stainless-steel mould with an elevated centre and compacted with a press which also gives the burger its appetising ridged appearance. The elevation in the base forms a dimple in the patties which ensures their shape retention during frying. The set is easily cleaned in the dishwasher.

Steam insert VITALA

15460
exclusive

For a healthy, vitamin-containing and gentle preparation of your food. The collapsible steam insert is a must for cooking with fresh vegetables. Not only the flavor enhanced, but nutrients are not lost as they would be by boiling. Steaming is a method of food preparation where fish, meat or vegetables are cooked in a small quantity of liquid, such as wine, broth or stock, or just in water. As this is an extremely low-fat mode of preparation it is particularly suitable for dietary food.

- Collapsible steam insert for pots from a diameter of 18 - 26 cm
- Collapsible feet with silicone coated feet, keep it separated from the bottom of the pan and prevent the surface from getting scratched
- Telescopic handle to keep a safe distance from the hot bowl and space-saving storage
- Stainless steel / plastic
- Dishwasher-safe

Pastry roller EXACT

Rolling pin for adjustable dough thickness

14620
exclusive
LAVIVO
industrial design

The rolling pin rolls the dough precisely to any desired thickness between 0 and 8 mm, quickly and cleanly, without sticking. Indispensable for dough making. Turn the rolling pin until the desired number of millimeters shows at the top and then roll the dough out. In this way you will automatically arrive at the desired dough thickness. This ensures that each of your pastries is baked evenly.

- Precise dough thickness thanks to height marks on the wheels
- ilag non-stick coating
- Adjustable from 0 to 8 mm
- Maximum width of dough: 250 mm
- High-grade stainless steel, plastic, ilag

Adjust required mm, hold tight the handles and roll

= No longer burnt cookies due to a constant dough thickness !

Rolls out different doughs evenly (2 - 8 mm).

Digital radio roast thermometer with timer HÄNDI

21850
exclusive

Cook and roast with precision!

Enjoy the ease and independence that cooking or roasting with the digital radio roast thermometer brings. You will constantly receive updates on the temperature which will be displayed on the mobile device and received by radio. As soon as the meat is cooked as well as you want it, a signal will sound. Using the roast thermometer you can access pre-programmed cooking times for different meats. The integrated timer serves as a tool for the precise preparation of other dishes.

- Measures temperature during food preparation
- Timer: up to 99 min. 59 sec.
- Alarm when a certain temperature is reached (temperature can be set)
- Stainless steel probe (180 mm) with 1 m heat resistant cable
- 2- part sender and receiver
- Radio range between sender and receiver: 20 m (range depends on the space and surroundings)
- Temperature display can be set to °C and °F
- Can be used with different kinds of meat (beef, pork, lamb, chicken...)
- Choose how well the meat should be cooked (bloody, medium, well done...)
- Battery included

Roast and oven thermometer 3 in 1

21800
exclusive

This roast and oven thermometer is an indispensable help for all, who love delicious roasts. Sticked into the roast, the thermometer measures the temperature inside the roast as well as outside in the oven during the roasting process. Even low temperatures from 70 to 80 ° C for low-temperature cooking are shown.

5
JAHRE
FRIEDRICHS
GARANTIE

Roast thermometer

21880

What meat do I roast at what temperature? This is a question that no longer needs to be asked thanks to the practical scale on the roast thermometer. Poultry, pork, lamb, beef or wild game - just push the thermometer into the meat and read the optimal temperature.

Oven thermometer

21870

The oven thermometer puts you on the safe side when preparing food. It does not only check the temperature inside the oven but also uses a color scale to indicate the ideal temperature for low-temperature cooking, baking and roasting. For placing or hanging.

Freezer- / Fridge thermometer

21890

Being gentle on food and saving energy at the same time is simple with this freezer and fridge thermometer. Just hang or place it in the refrigerator or the freezer compartment and read the respective ideal temperature range in °C from the scale areas marked blue. For placing or hanging.

Digital timer

12330

With this practical digital timer every dish is bound to be a success. Adjustable to the minute and to the second (up to 99 min. and 59 sec.). Can be attached to any metal surface thanks to a magnet on the back, or supported on the yoke. Stainless steel / plastic.

Baking thermometer MESSIMO

21810
exclusive

Forget the skewer test to roughly gauge if your cake or bread is done. From now on the baking thermometer gives you an absolute guarantee of success for perfect cakes and bread loaves: not too dry and not too moist. Just stick the thermometer into the cake or bread when it begins to become firm and read the progress on the display. Thanks to the graduation you will know exactly how soon the cake/bread will be done.

- 100 % guarantee of success for pastries and bread loaves
- For shallow and deep cakes, Gugelhupf, bread plaits and loaves
- Easy to use: insert – read – done!
- Simple, easy-to-read display
- Stainless steel, dishwasher-safe

Timer RETRO

12290

NEW
2016

Retro look meets precision: our mechanical kitchen timer reflecting the decorative style of the 60s can be set for up to 60 minutes.

- mechanical timer in retro look
- magnet at the back
- can be set to at most 60 minutes
- H 3.3 cm / 1 1/3 in., dia. 7.3 cm / 3 in.
- metal varnished black, setting wheel chrome-plated

Timer OPTICO, large ø 78 mm

12300

This convenient timer with a duration from 0 to 60 minutes can be wind up precisely to the minute. The heavily red marked display shows the remaining runtime. The magnet on the back of the timer allows easy attaching to magnetic surfaces. This is how you can always keep your timer within eyeshot.

Timer OPTICO, small ø 61 mm

12310

Sous Vide thermometer SEGURO

21900

NEW
2015

Trendy sous vide cooking – for which the food to be cooked is sealed in plastic bags – calls for the PUNTARE sous vide thermometer, because it allows meat, fish or poultry to be cooked to perfection in a normal cooking pot at low temperature.

- floating thermometer for sous vide cooking
- graduation for fish, beef, pork and poultry
- quick response and short measuring time: approx. 10-15 seconds
- measuring range +30 to +90°C / 86 to 194°F
- measuring steps 1°C / 34°F
- measuring accuracy: 58-85°C +1.5°C / 136-185°F +35°F; other temperature ranges +2°C / 36°F
- high-grade stainless steel and plastic
- dishwasher-safe

Product recommendation

A vacuum-sealing set and matching vacuum-sealing bags can be found on page 110.

GEFU®

The art of GEFU's product presentation

The wide range of more than 380 innovative GEFU products makes it difficult to choose. In order to show all attractive products in a positive light, GEFU offers high quality displays with adequate functions. Make your choice between wall or base units in an elegant design.

The units can be completed with additional display modules which make the system extendable without limitation. The system offers a lot of space for kitchen tools of all kind of sizes, from the smallest shish kebab skewers up to the largest pasta machine.

Additionally, posters and displays can be easily integrated into the system to catch the eye. Effective secondary placements perfectly complete the range of displays. The new GEFU corporate design speaks a clear language and highly improves the brand. A perfect presentation will help each culinary artist to find his favourite kitchen tool.

depth 100 cm / 39 ¼ in
height 140 cm / 55 in

Shop floor display head unit

91740

The head unit is supplied with wall hooks and 1 glass shelf. Lighting can be added.

Dimensions:
Width 100 cm / 39 ¼ in, depth 55 cm / 21 ¾ in,
height 140 cm / 55 in

Shop floor display head board

91745

The head board is supplied with wall hooks.

Dimensions:
Width 70 cm / 27 ½ in, depth 7 cm / 2 ¾ in,
height 130 cm / 51 ¼ in

Focal point showcase

91780

The focal point showcase is ideally suited to present customers with the flesh-and-blood experience of GEFU products. Equipped with two glass shelves it offers sufficient space for your GEFU highlight products. In addition, a digital picture frame serves to play inspiring GEFU product films.

Dimensions:

w 95 cm / 37 ½ in., d 22 cm / 8 ¾ in., h 80 cm / 31 ½ in.

GEFU fluorescent logo

91735

Gondola display supplement

Illuminated picture frame

91812

Holding translucent A2 posters alternating by the season, the illuminated picture frame adds variety to your presentation. Ideal for the 60-cm-wide (23 ½ in) rear wall module.

Dimensions:

w 46.2 cm / 18 ¼ in, d 3 cm / 1 ¼ in., h 63.6 cm / 25 in.

Display table

91770

Display table with 2 surfaces for the hands-on presentation of the GEFU range.

Dimensions:

w 60 cm / 23 ½ in., d 120 cm / 47 ¼ in., h 95 cm / 37 ½ in.

Fluorescent tubes for Shop floor display

91785

Supplement for the in-store display unit base and top unit. Anodised aluminium, 28 Watts

With bracket for attachment to the rear wall.
Height: approx. 129 cm / 50 ¾ in

Fluorescent tubes for Rear panel display unit

91786

Supplement for the rear wall display unit. Anodised aluminium, 35 Watt

With bracket for attachment to the rear wall.
Height: approx. 192 cm / 75 ½ in
