# The simple art of cooking!

Dear customers,

Cooking is more than just peeling potatoes, washing vegetables or roasting meat. Cooking is a passion that inspires us provided we use the perfect designed kitchen tools. You do not have to be a culinary artist, but you easily might become one! Staying true to our motto “With GEFU everybody becomes a culinary artist” we offer products that will convince you through easy handling, functional added value and timeless design. In short, the sleek, innovative and practical design makes GEFU kitchen tools the perfect match for modern cuisine. Roasting thermometer, food mill, asparagus peeler, ravioli cutter or chopping board box, we have the right product for each recipe. Whether it is for vegetables, pasta or meat dishes, with our exclusive assortment we offer you the perfect tools for easy cooking. Get inspired and discover the variety of culinary indulgence with GEFU.

Rudolf Schillheim  
Chief Executive Officer of  
GEFU Küchenboss GmbH & Co. KG

## GEFU – products you can trust!

Nearly 70 years of know how make GEFU a specialist of high quality kitchen tools. Our entire line of products includes 280 best selling items which are all characterised by a perfect match of functionality, quality and design. The head office of this innovative mid size and growing company is located in Eslohe, Sauerland. GEFU products are sold in 47 countries around the world.

# The art of making a perfect GEFU product design!

How to easily and quickly cook vegetable spaghetti made of zucchini and carrots? How to store fresh cut vegetables? Or how to bread a schnitzel without making a mess? You might have asked yourself these kinds of questions many times. We certainly are looking for answers and are working hard to find practical and innovative solutions in order to simplify food preparation and cooking.

In cooperation with our design team we develop, create and draft a design out of our ideas. We choose moulds, discuss materials and create a prototype of new kitchen tools. If this prototype meets our high demands in terms of functionality and design we develop a 3D computer graphic which will become a template for series production.

Prior to series production our products are tested in terms of finishing, material quality and safety in numerous quality checks. Only if the results of the tests meet our highest quality standards, the products will be released for series production and the kitchen tool will be added to our wide assortment of GEFU products.

During the product development process function, materials and design are defined.

Each production is based on a 3D model, a so-called CAD.

Based on this computer generated virtual model a first prototype is created which has to pass the first quality tests.

Not only one single, first product of the series production but numerous more products randomly taken from each production run have to pass all quality tests.

# The art of highest GEFU product quality

Whether you cut tens of thousands carrots, turn the umpteenth schnitzel or chop tons of onions, kitchen tools are used on a daily basis and have to provide high performance again and again.

It is therefore important that the blade is sharp, the spatula has an anti slip coating and the mechanism is impeccable. GEFU products are what could be said to be „unbreakable“.

Stylish, functional and of high quality – all GEFU kitchen tools must meet these high demands. The quality management of GEFU in cooperation with independent experts, i. e. TÜV Rheinland, extensively test all products with a focus on food safety, material, safety and user friendliness. This also means that during the process from the first prototype to series production, all products undergo several, substantial quality checks.

This quality procedure has paid off as GEFU has been awarded the LGA-tested Quality seal several times. With such high standards of quality, GEFU is able to offer the 5 year quality guarantee on several items. First class quality, design innovation, and high performance make GEFU products the consumer's best choice in kitchen tools.

GEFU-Q5: Functionality, first class quality and high quality finishing characterise our products. All products are regularly tested for quality and optimised to meet the highest demands of modern cookery. GEFU offers a 5 year warranty without restrictions for several items, recognisable by the GEFU-Q5 seal on the packaging.

**LGA tested & LGA tested Quality:** Whether cheese grater PARMIGIANO or spiral slicer SPIRELLI – many GEFU products have been extensively tested by TÜV Rheinland for i.e. user safety, functional characteristics, usability and hygiene and have been awarded the "LGA-tested" and "LGA-tested Quality" seal. TÜV Rheinland only awards a product which meets the highest safety requirements from user manual, functional characteristics up to user safety and only if it completely fulfils its intended purpose.

**Quality assurance:** the internal quality management of GEFU is responsible for quality monitoring in cooperation with independent certified inspections.

## The art of GEFU's product presentation

The wide range of more than 280 innovative GEFU products makes it difficult to choose. In order to show all attractive products in a positive light, GEFU offers high quality displays with adequate functions. Make your choice between wall or base units in an elegant design.

The units can be completed with additional display modules which make the system extendable without limitation. The system offers a lot of space for kitchen tools of all kind of sizes, from the smallest shish kebab skewers up to the largest pasta machine.

Additionally, posters and displays can be easily integrated into the system to catch the eye. Effective secondary placements perfectly complete the range of displays. The new GEFU corporate design speaks a clear language and highly improves the brand. A perfect presentation will help each culinary artist to find his favourite kitchen tool.

**With base units** you can also present smaller items in a good light.

**Mobile shelving systems** like the indulgence corner can be easily integrated into each store concept.

**Wall displays** can be individually combined and come with catchy slogans, wall hooks and glass shelves.

**Poster and displays** will draw the attention of consumers.

**Secondary placements** can focus on seasonal highlights.

# The art of powerful and effective GEFU communication

Only a culinary artist or also a communication artist? GEFU gladly faces this challenge. GEFU uses various communication channels all year around in a professional and consequent way. With focus on attention getting sales promotions and media appearances in popular magazines GEFU accomplishes to arouse the attention of national and international customers and to trigger impulse purchases. This communication strategy includes e. g. a creative advertising campaign in the specialised media, editorial product reviews in the consumer press which are expected to reach approx. 150 readers, target group related online media placement, our website [www.gefu.com](http://www.gefu.com), attractive displays for retailers, seasonal and thematically related leaflets and other print material to

communicate consumer-friendly and easy to read product and indulgence information as well as the integration of QR codes on displays and posters which is a contemporary way to communicate with today's consumers.

**Flyer:** Consumer-friendly leaflets with GEFU information.

**Window decoration:** Modern consumer communication, also outside normal business hours.

**Advertising:** Eye-catching placements

Internet: Available 24 hours a day [www.gefu.com](http://www.gefu.com)

**Newsletter:** A constantly updated consumer communication tool.

Dennis Becker & Christoph Wiehle  
INVIVO-Design Team

## Artistic GEFU products created by designers

Whether it is a cutting tool, grater or gripping tool, in line with our motto „nothing is impossible“ GEFU offers functional, stylish and special design kitchen tools. The ideas and products are especially developed by our own GEFU team, supported by the INVIVO designer team.

INVIVO has expertise in designing kitchen tools, electrical kitchen appliances, home accessories, tableware and lighting. The company's name INVIVO indeed reflects the philosophy of both graduated designers Dennis Becker and Christoph Wiehle. „INVIVO“ means vitality in the very best sense of the word: elementary and surprising.

A profound and controversial analysis of various ideas, materials and production options result in the typical INVIVO industrial design. Elementary design and easy handling are as important as style and aesthetic features. The designer team ensures a perfect and easy handling of the GEFU products and, at the same time, accomplishes to create a modern and stylish designer kitchen tool.

Thanks to this creativity and innovative spirit GEFU products have been awarded the renowned red dot design award several times, most recently the rotary grater PECORINO LASER CUT.

## Just cooking or the art of designing?

Universal Cheese Grater  
PARMIGIANO LASER CUT

Rotary Grater  
PECORINO LASER CUT

**19060**

### Rotary Grater PECORINO LASER CUT

Thanks to its two interchangeable drums, the rotary grater is suited for making shavings and fine crumbs. Just put hard cheese, nuts or chocolate into the inlet funnel, turn the handle – and done! The sophisticated engineering of the rotary grater allows the almost complete utilization of the material you want to grate while keeping your hands safely away from it and guaranteeing odour-free and clean working.

- 2 interchangeable grater drums (fine and coarse)
- For grating cheese / nuts / garlic / chocolate...
- Closable storage compartment
- Grating directly into the storage compartment possible
- Odour-free working
- Food is grated completely, without waste
- Easy interchanging of drums
- Dismountable for easy cleaning
- Stainless steel / plastic, dishwasher-safe

**34680**

### Universal Cheese Grater PARMIGIANO LASER CUT

Multifunctional cheese grater with two interchangeable discs, makes shavings or fine crumbs from hard cheese, chocolate or nuts in no time at all.

- For grating hard cheese / chocolate / nuts etc.
- 2 interchangeable grating discs for shavings and fine crumbs
- Easy interchanging of grating discs
- One grating disc can be stored in the lid
- Food to be cut stored air-tight in the lid
- Material is grated completely
- Comes with a wiper
- Comes with flavor-lock lid / collecting tray
- Stainless steel / plastic, dishwasher-safe

grating discs

**34670**

### Nutmeg Mill MOSCATA LASER CUT

Equipped with a Laser Cut grater mechanism, the mill grinds nutmegs and hazelnuts completely.

- Integrated storage compartment for up to 4 nutmegs
- Comes with flavor-lock cap
- Lock-in function (marked Open - Close) for safe filling with up to 1 nutmeg
- Flavor-lock lid prevents mess at the table
- Handle folded out for easy operation
- Handle can be folded back for space-saving storage
- Stainless steel / plastic

**34660**

### Spice Mill AROMATICO

This cleverly designed GEFU spice mill is not only elegant but, more importantly, has a great range of functions. Filling is as simple as can be: turn the handle upright, remove the rubber lid and fit the bag of spices onto it. It's easy to fill or refill with the spices you want. Adjust the fineness of your spices from below using the adjustable ceramic grinding device. The supplied cap stops the spices trickling out onto your table or worktop.

- Practical flip-up handle makes it easy to fill
- Window shows if it needs refilling
- Screw-on cap for a clean table
- Adjustable ceramic grinding device
- Includes 6 labels (chilli, salt, pepper, caraway, fennel, blank)

### Gourmet Cutter VIOLINO

VIOLINO – the specialist in all matters concerning cutting and shaping. Whether you need thick or thin batons, cubes or slices for a tasty dish, VIOLINO makes it easy. The gourmet cutter comprises of:

- 3 different, interchangeable cutting surface blades
- 1 remainder holder
- 1 storage box for the cutting surface blades
- Cutter with integrated hand wheel for various heights of cutting materials

Thanks to the especially sharp knife, VIOLINO can be used for almost any type of food! Anti-slip feet. Stainless steel / synthetic material, dishwasher-safe.

13420

### Slicer TARI

This slicer will make your work in the kitchen easier. Whether you are making fruit salad, tomato and mozzarella or a delicious mushroom dish, with the slicer you can cut exact 5-mm slices. The specialist serrated Japanese blade makes chopping ingredients into child's play. To clean, simply unfold the bars and, after use, place in the dishwasher.

The safe locking mechanism saves space when it is put away in a drawer.

- Special, sturdy Japanese blades made of stainless steel
- Easy to clean thanks to fold-out bars
- Locking mechanism
- Stainless steel / plastic
- Dishwasher-safe

Special ridged, Japanese steel blade.

The art of  
cutting

## Just knives or the art of cutting?

Filet knife RAN

Santoku GOU

\* GEFU has the distribution rights for Germany and a few European countries.  
In case of interest, please send us your inquiry.

### GOU Knife

Pure handiwork! From conception to the finished product, all GOU knives are finished by pure handiwork! They are manufactured in 5 stages, ensuring their super sharpness and infinite lifespan. The GOU knives also originate from the Yaxell blacksmith and contend with the crème de la crème of the Japanese knives with their particular blade and handle features.

The core of the blade is made of Japanese SG2 micro carbide powder steel and is coated in 100 layers of stainless steel. The result is a blade with 101 layers and a Rockwell hardness of 63 HRC. The handles are made of FDA inspected, resilient canvas micarta plus, consisting of canvas and resin, which unlike pakka wood does not contract and remains unchanged for decades. The GOU lettering is classily engraved at the end of the handle.

GOU knives are used by the most famous chefs world-wide. But more and more ambitious amateur chefs are also using the GOU knives and enjoying their cutting performance.

### 30320

All purpose knife GOU

Most suitable for preparing fish, meat and vegetables.

The chef's knife is suitable for universal kitchen use.

Blade length: 200 mm

**RAN Knife**

The professional Damascus steel knives from the RAN series are in keeping with current trends. Damascus steel knives boast 69 layers and high-strength V gold steel blades and have a Rockwell hardness of 60-61 HRC. They are cut by hand and are finished in five stages. This means that each knife is unique. The handles are made of canvas micarta, a resilient material, which, unlike pakka wood, does not contract : stands for the particular sharpness of our cutlery.

European and Asian manufacturers were compared. At GEFU we are very happy with the very positive test magazine's results in which the RAN knives were nominated test winners in two categories.

In the ETM test magazine in March 2009, the quality of high performance chef's knives was tested. Knives from various

# The art of slicing

## 30140

### Whetstone 1000 / 3000

To sharpen your knife in a perfect way we recommend the traditional ceramically bonded whetstone. The Japanese whetstone has one coarse side (graining 1000) to remove small defects and a fine side (graining 3000) to sharpen the blade again. Double sided graining 1000 and 3000 for rough grinding and whetting. Ceramically bonded.

## 30110

### Sharpening Guide Rail, 2 pieces

We recommend these sharpening guide rails to help you sharpen on a whetstone. These sharpening guide rails maintain an angle of 10 – 15°, which is necessary for the optimum sharpening result. Sharpening guide rail, big – for knives with a blade length from 15 cm sharpening guide rail, small – for knives with a blade length up to 15 cm

## 30150

### Whetstone RAN

Dual-sided grain 240 and 1000 for pre-grinding and sharpening.

Dimensions: 185 x 62 x 30 mm

## 30160

### Knife Sharpener RAN SHARP

To sharpen your knife to the highest standard, we recommend the RAN SHARP knife sharpener. The Japanese sharpening stone has a WA#400 grain to even out minor damage and sharpen the cutting edge. This knife sharpener can be used wet or dry. You can sharpen your knife up to 5,000 times with the RAN SHARP.

## 30170

### Knife Sharpener GOU SHARP

To sharpen your knife as best as possible, we recommend the GOU SHARP knife sharpener.

- Grain: WA#400
- Use wet or dry
- Replaceable sharpening stones

### Gourmet Cutter VIOLINO

VIOLINO – the specialist in all matters concerning cutting and shaping. Whether you need thick or thin batons, cubes or slices for a tasty dish, VIOLINO makes it easy. The gourmet cutter comprises of:

- 3 different, interchangeable cutting surface blades
- 1 remainder holder
- 1 storage box for the cutting surface blades
- Cutter with integrated hand wheel for various heights of cutting materials

Thanks to the especially sharp knife, VIOLINO can be used for almost any type of food! Anti-slip feet. Stainless steel / synthetic material, dishwasher-safe.

IAVIVO  
Industrie- und  
Handwerk-Design

## Slice – thin sticks and cubes

### VIOLINO - Attachment for slices

This attachment is particularly suited to the cutting of slices. The slicing height can be adjusted between 1 and 5 mm. Whether sliced potatoes for gratins, cucumber slices for a tasty salad or sliced carrots for a vegetable side dish – VIOLINO cuts as quick as a flash!

### VIOLINO - Attachment for thin sticks and cubes

This attachment cuts sticks and cubes 3.5 mm in width. According to demand these can also be cut to a thickness of 3 and 5 mm. Whether diced tomatoes for a tasty bruschetta or vegetable batons for a healthy wok dish. Let your imagination run free!

### VIOLINO - Attachment for thick sticks and cubes

This attachment cuts food into sticks or cubes 7.0 mm in width. Ideal for making healthy vegetable crudité, chips or a vitamin-rich salad.

Chopping Board Box CASSETTO NEW

This multi-talented chopping board and box excels with its numerous applications. The chopping board has a juice-catching groove and an opening for filling two containers below. Small quantities of chopped food can be collected in either the stainless steel tray or carried away by using the flexible cutting mat. It can even be used to marinate or to bread your culinary creations. With so many ways to use, the only limitation is ones imagination.

- Cutting, collecting, storing and marinating
- Chopping board with a liquid-catching groove around the edge and an opening for filling the containers below
- Stainless steel tray to catch small quantities of ingredients, e.g. cut onions / peperoni / herbs or for marinade / spice mixtures
- Additional flexible cutting mat for carrying chopped food
- 2 non-slip trays for collecting the chopped food or offcuts
- Can also be used separately, e.g. for breading
- SAN / stainless steel / plastic
- Dishwasher-proof up to 65 °C

IAVIVO

Functional chopping board box for cutting, collecting, storing and marinating.

Chopping board with liquid drainage and two non slip drip trays for collecting and storing e.g. prepared meat, poultry, fruit and vegetables before cooking. The trays can be filled through the opening in the board. Small quantities of cut food like onions, pepperoni and herbs can be collected in the stainless steel tray that fits in the opening. The chopping board also includes a cutting mat for quickly and flexibly carrying prepared food from the counter top to the pot or bowl.

12750

Cutting Mats, 4 pieces

- Meat
- Vegetables & Fruits
- Poultry
- Fish

The individual chopping mats – black for meat - dark grey for fruit and vegetables - light grey for poultry - white for fish – help to make kitchen work more hygienic by keeping foodstuffs apart. The mats are marked with suitable symbols. Flexible material for quick transportation of the chopped food from the work surface into the pot or onto the plate, nonskid back for safe working. Knives remain sharp.

- Marked with suitable symbols
- Flexible material for quick transportation of the chopped food
- Nonskid back
- Save knives from getting blunt
- Size 30 cm x 38 cm
- Material PP / EVA
- Dishwasher-safe

## 13460

# The art of grating

## Just rasping or the art of grating?

Four-way Grater  
VITALES LASER CUT

Nutmeg Mill  
MOSCATA LASER CUT

### Laser Cut

The La Linea line of long and narrow graters bring greater efficiency into the kitchen. They are extremely sharp and produce optimal grating results. Food is cut and not ripped by the small, very sharp teeth so that the flavours are not lost. Due to the high level of sharpness, there is hardly any liquid residue on the cutting edge and everything remains smooth. This sharpness is guaranteed by a special LASER CUT process. The various graters can be used for a wide range of applications in the kitchen. Further advantages of the graters include the curved top plating and the anti-slip foot which ensures stability when grating.

### 52050

#### Universal Grater MULTICO

The universal grater has two different grating blades which can be used to finely or coarsely grate various spices, types of vegetables and other solid food. The fine grating blades are particularly suited to citrus fruits, parmesan, nutmeg, garlic etc. The coarse grating blades are suitable for solid cheeses, carrots, potatoes and chocolate etc.

- Stainless steel • Dishwasher-safe

This high-quality colander is a true space saver: it can be folded to a height of no more than 2.5 cm to store it in the cupboard. 24 Ø. Silicon / stainless steel, dishwasher-safe.

# 15460

## Steam Insert VITALA

NEW

For a healthy, vitamin-containing and gentle preparation of your food. The collapsible steam insert is a must for cooking with fresh vegetables. Not only the flavor enhanced, but nutrients are not lost as they would be by boiling. Steaming is a method of food preparation where fish, meat or vegetables are cooked in a small quantity of liquid, such as wine, broth or stock, or just in water. As this is an extremely low-fat mode of preparation it is particularly suitable for dietary food.

- Collapsible steam insert for pots from a diameter of 18 - 26 cm
- Collapsible feet with silicone coated feet, keep it separated from the bottom of the pan and prevent the surface from getting scratched
- Telescopic handle to keep a safe distance from the hot bowl and space-saving storage
- Stainless steel / plastic
- Dishwasher-safe

### Pastamachine PASTA PERFETTA NERO

The pasta machine PASTA PERFETTA NERO is the pasta machine for the perfect preparation of original homemade pasta. With only a couple of turns three kinds of pasta can be made: tagliolini, tagliatelle and lasagna.

- Pasta machine with crank drive
  - Width of dough: 145 mm / thickness: 0,2 – 3,0 mm
  - Anti-slip base
  - Extra high table clamp (for worktops up to 60 mm)
  - Material: stainless steel, black high-gloss surface / roller: refined light metal
- Thanks to the refined light metal roller with a high-quality surface finishing the dough sheets are healthier and tastier
- including pasta-bike and cleaning brush

**28240**

### Pastamachine BRILLIANTE

**NEW**

The pasta machine BRILLIANTE is the pasta machine for the perfect preparation of original homemade pasta. With only a couple of turns three kinds of pasta can be made: tagliolini, tagliatelle and lasagna.

- Pasta machine with crank drive
- Width of dough: 145 mm / thickness: 0,2 – 3,0 mm
- Anti-slip base
- Extra high table clamp (for worktops up to 60 mm)
- Material: stainless steel, black high-gloss surface / roller: refined light metal
- Thanks to the refined light metal roller with a high-quality surface finishing the dough sheets are healthier and tastier

**28300**

**Pastamachine  
PASTA PERFETTA DE LUXE**

First class quality in a retro design – ideal for making six types of pasta; lasagna, tagliatelle, taglionini, lasagne rice, spaghetti and ravioli. So easy to use, simply turn the handle! With a slip resistant base and screw clamp for stability.

**28400**

**Pastamachine PASTA PERFETTA**

First class quality in a retro design – ideal for making three types of pasta; lasagna, tagliatelle and taglionini. So easy to use, simply turn the handle! With a slip resistant base and screw clamp for stability.

**28410**

**Component for Pastamachine 28400**

For two different types of pasta; lasagne rice and spaghetti, with a dough width of 145 mm.

**28420**

**Component for Pastamachine 28400**

For ravioli. So simple to use, simply turn the handle! For a dough width of 110 mm. Comes with a dough edge cutter.

**28440**

**Ravioli / Pasta-Case maker  
3-piece set - square**

To prepare larger quantities of Ravioli or pasta-case simply place a sheet of dough onto the flour-sprinkled ravioli maker and press down using the plastic mould. Put any filling you want into the cups, brush the edges with egg yolk and cover with another sheet of dough. Run the rolling pin across the dough with light pressure, then overturn the maker and the twelve dough pockets will come off easily.

- For preparing square pasta-cases (12 pieces)
- 3-piece set
  - Ravioli / pasta-case board
  - plastic insert for shaping hollows
  - wooden rolling pin
- Aluminium / plastic / wood, can only be cleaned by hand.

**28450**

**Ravioli / Pasta-Case maker, 3-piece set, round**

To prepare larger quantities of Ravioli or pasta-case simply place a sheet of dough onto the flour-sprinkled ravioli maker and press down using the plastic mould. Put any filling you want into the cups, brush the edges with egg yolk and cover with another sheet of dough. Run the rolling pin across the dough with light pressure, then overturn the maker and the six dough pockets will come off easily.

- For preparing semicircular pasta-cases (6 pieces)
- 3-piece set
  - Ravioli / pasta-case board
  - plastic insert for shaping hollows
  - wooden rolling pin
- Aluminium / plastic / wood, can only be cleaned by hand.

**28220**

**Motor Pastamachine**

All GEFU pasta machines can be equipped easily with the pasta motor thanks to its simple mounting facility. The motor can be used both for the smooth-, thick roller (for making flat dough layers) and also for the attachments.

**28360**

**Pasta Dryer**

**NEW**

Six drying arms. Arms are detachable for direct removal of the pasta from the pasta machine. Can be taken apart for space-saving storage. ABS plastic. Dishwasher-proof.

**28460**

**Ravioli Cutter, round**

Handy cutter for home-made round ravioli. The cutter's serrated surface releases the pasta easily. The ergonomic grip lies comfortably in your hand. High-quality combination of die-cast zinc and plastic. Dishwasher-proof.

**28470**

Handy cutter for home-made square ravioli. The cutter's serrated surface releases the pasta easily. The ergonomic grip lies comfortably in your hand. High-quality combination of die-cast zinc and plastic. Dishwasher-proof.

**28480**

**Ravioli / Pasta-case Mould, foldable - square**

Practical mould for making fresh ravioli or pasta cases. It's simple. Use the bottom of the mould to cut the pastry, place the cut pastry into the inside of the mould and then fill it. Brush the edges with egg yolk, fold together and you're done. Then take it out and cook as usual.

- For preparing fresh ravioli or pasta-cases
- 8 x 8 cm
- Bottom of the mould serves for cutting the dough
- Ergonomic handles
- Stainless steel / plastic
- Dishwasher-safe

**IAVIVO**  
Handmade in Italy - since 1968

**28490**

**Ravioli / Pasta-case Mould, foldable - round**

Practical mould for making fresh ravioli or pasta cases. It's simple. Use the bottom of the mould to cut the pastry, place the cut pastry into the inside of the mould and then fill it. Brush the edges with egg yellow, fold together and you're done. Stainless steel / plastic, dishwasher-safe.

**IAVIVO**  
Handmade in Italy - since 1968

**28430**

**Ravioli / Pasta-Case Mould, 3-piece Set**

Practical set for making fresh ravioli or pasta cases in three different sizes, D: 12,5 / 9,5 / 6 cm. Use the bottom of the mould to cut the pastry, place the cut pastry into the inside of the mould and then fill it. Brush the edges with egg yolk, fold together, done! High-quality plastic, dishwasher-safe.

**10800**

**Spaetzle-Mix**

**NEW**

The Spaetzle-Mix starts a new era of absolutely easy spaetzle making. Making dough for spaetzle, pasta, or batter for pancakes is easier than ever thanks to the recipes given on the shaker and to the scaling for the layers of ingredients in the transparent plastic container. The unique "Twister" insert mixes the ingredients perfectly, while a parallel 5-nozzle tank stops them from sticking together and the non-slip Santoprene™ inlays guarantee safe operation.

- Making batter is child's play
- Recipe for spaetzle (egg noodles) and pancakes on the shaker
- Innovative mixing insert "Twister" for highly efficient batter mixing
- Parallel 5-jet system to prevent sticking
- Residue-free batter processing
- Ergonomic design and Santoprene grip inlays for safe handling during mixing
- Secure closing lid
- Flexible PE container for easy work with very little pressure
- Transparent PE container allows continual monitoring of contents
- PP plastic / ABS / Stainless steel
- Dishwasher-safe

**10915**

**Spaetzle Spoon and Scraper**

**NEW**

Make spaetzle right over the pot, just like grandma used to do - just easier, using the spaetzle spoon and scraper made of hygienic Nylon material.

- Perfect spaetzle made easily over the pot
- Secure positioning on various pot sizes Ø 18 to 24 cm
- Ergonomic handle with finger guard and soft-grip insert
- Large flexible batter spatula for pushing entire batter through the straining spoon; can be fixed in the spoon for storage
- Heat-resistant nylon-plastic up to 210 °C
- Plastic / Nylon
- Dishwasher-safe

**IAVIVO**  
Handmade in Italy - since 1968

**10980**

**Spaetzle Planer for long spaetzle**

For making original spaetzle effortlessly and quickly. With dough slider made from polished stainless steel. The top plating stops the spaetzle planer from slipping and ensures a firm hold on the top edge. The new, ergonomic stainless steel handle rests firmly in your hand. For cleaning the plastic insert can be removed from the handle. Stainless steel, dishwasher-safe.

**10920**

**Spaetzle Maker ERGO**

Stylish design and easy to use. Will not obstruct the view of the spaetzle. Suitable for pots of 24-28cm. Hands are protected by insulated grips. Made from stainless steel. Comes with a plastic scraper.

**10970**

**Spaetzle Planer for short spaetzle**

For making original spaetzle effortlessly and quickly. With dough slider made from polished stainless steel. The top plating stops the spaetzle planer from slipping and ensures a firm hold on the top edge. The new, ergonomic stainless steel handle rests firmly in your hand. For cleaning the plastic insert can be removed from the handle. Stainless steel, dishwasher-safe.

**10990**

**Spaetzle Board**

Practical wooden board from solid beech for preparing spaetzle.

**10995**

**Spaetzle Scraper**

Stainless steel scraper for making hand made spaetzle. Complements the 10990 Spaetzle Board.

**10930**

**Blanching Spoon with wire handle**

The spiral-form spoon is ideal for skimming, straining and removing spaetzle and potato dumplings, gnocchi and filled pasta. Light and very stable. Stainless steel

**10950**

**Spaetzle Maker for short noodles**

Spaetzle maker for quick and easy production of original spaetzle. Stainless steel, dishwasher-safe.

**10960**

**Spaetzle Maker for long noodles**

Spaetzle maker for quick and easy production of long spaetzle. Stainless steel, dishwasher-safe.

### Digital radio Roast thermometer with Timer HÄNDI

Cook and roast with precision! Enjoy the ease and independence that cooking or roasting with the digital radio roast thermometer brings. You will constantly receive updates on the temperature which will be displayed on the mobile device and received by radio. As soon as the meat is cooked as well as you want it, a signal will sound. Using the roast thermometer you can access pre-programmed cooking times for different meats. The integrated timer serves as a tool for the precise preparation of other dishes.

- Measures temperature during food preparation
- Timer: up to 99 min. 59 sec.
- Alarm when a certain temperature is reached (temperature can be set)
- Stainless steel probe (180 mm) with 1 m heat resistant cable
- 2- part sender and receiver
- Radio range between sender and receiver: 20 m (range depends on the space and surroundings)
- Temperature display can be set to °C and °F
- Can be used with different kinds of meat (beef, pork, lamb, chicken...)
- Choose how well the meat should be cooked (bloody, medium, well done...)
- Battery included

## 21800

### Roast and Oven Thermometer 3 in 1

NEW

This roast and oven thermometer is an indispensable help for all, who love delicious roasts. Sticked into the roast, the thermometer measures the temperature inside the roast as well as outside in the oven during the roasting process. Even low temperatures from 70 to 80 °C for low-temperature cooking are shown.

## 21880

### Roast Thermometer

NEW

What meat do I roast at what temperature? This is a question that no longer needs to be asked thanks to the practical scale on the roast thermometer. Poultry, pork, lamb, beef or wild game – just push the thermometer into the meat and read the optimal temperature.

## 21870

### Oven Thermometer

NEW

The oven thermometer puts you on the safe side when preparing food. It does not only check the temperature inside the oven but also uses a color scale to indicate the ideal temperature for low-temperature cooking, baking and roasting. For placing or hanging

## 21890

### Freezer- /Refrigerator Thermometer

NEW

Being gentle on food and saving energy at the same time is simple with this freezer and fridge thermometer. Just hang or place it in the refrigerator or the freezer compartment and read the respective ideal temperature range in °C from the scale areas marked blue. For placing or hanging

## 21820

### Digital-Thermometer SCALA

Functional digital timer with an extra fast temperature display (4-10 sec) and an easy to read LCD display. Temp ranges -45 c to +200 c. (- 49f to +392f). Simple to change the display from c to f. Suitable for all types of food and wine. **21825 – sales enforcing display. Contains 18 pieces**

## 12330

### Digital Timer

With this practical digital timer every dish is bound to be a success. Adjustable to the minute and to the second (up to 99 min. and 59 sec.). Can be attached to any metal surface thanks to a magnet on the back, or supported on the yoke. Stainless steel / plastic.

## 21710

### Baster for roasting

NEW

Gravy or marinades ensure an incomparable tender spicy meat. Whether leg of lamb, knuckle of pork, braised meat or roast beef – with the baster for roasting, delicious meat dishes can be brilliantly be refined. It comes with its own cleaning brush. PP-Plastic / Silicone, dishwasher-safe.

34670

### Nutmeg Mill MOSCATA LASER CUT

Equipped with a Laser Cut grater mechanism, the mill grinds nutmegs and hazelnuts completely.

- Integrated storage compartment for up to 4 nutmegs
- Comes with flavor-lock cap
- Lock-in function (marked Open - Close) for safe filling with up to 1 nutmeg.
- Flavor-lock lid prevents mess at the table
- Handle folded out for easy operation
- Handle can be folded back for space-saving storage
- Stainless steel / plastic

34660

### Spice Mill AROMATICO

This cleverly designed GEFU spice mill is not only elegant but, more importantly, has a great range of functions. Filling is as simple as can be: turn the handle upright, remove the rubber lid and fit the bag of spices onto it. It's easy to fill or refill with the spices you want. The window gives you a good view of your spices, but the mill also comes with five spice labels (chilli, salt, pepper, caraway, fennel) and a blank one to label yourself. Adjust the fineness of your spices using the adjustable ceramic grinding device. The supplied cap stops the spices trickling out onto your table or worktop.

- Practical flip-up handle makes it easy to fill
- Window shows if it needs refilling
- Screw-on cap for a clean table
- Adjustable ceramic grinding device
- Includes 6 labels (chilli, salt, pepper, caraway, fennel, blank)

IAVIVO

Just pouring or  
the art of beverages?

Tea-Filter ARMONIA

Coffee-Filter ANGELO

## THE ART OF TEA

Tea is more than just a hot beverage. Tea is time for rest, contemplation and leisure. Whether black tea, soothing herbal tea or aromatic fruit tea - all teas have one thing in common: preparation is the key! Water is poured over the tea leaves to release the flavor. This is best done by preparing the tea directly in the cup or in the teapot. In order to prevent tea leaves from floating in the cup, tea infusers such as tea strainers, tea balls or tea-filters are used to make the tea. The perfectly prepared tea becomes something truly very special making the moment a memorable Art of Tea experience.

### Tea Filter ARMONIA

**NEW**

Using the ARMONIA Tea-Filter, everybody can perform their own little tea ceremony. ARMONIA is suitable for cups and pots. Even with large volumes, ARMONIA provides full aroma and perfect taste thanks to its micro-filter structure. Lovers of tea will especially appreciate the stainless steel lid that protects the aroma and also works as a coaster when the tea has brewed.

- Suited for cups and pots - Ø 50 mm
- Ultra-fine perforated stainless-steel filter material
- Large capacity for full aroma
- With a lid to cover the tea while it brews
- Also serves as a coaster to collect drips
- Odorless and tasteless
- Stainless steel / Plastic

**IAVIVO**

### Spice Colander GUSTO

**NEW**

The filled colander is perfectly suited for improving soups, stews or hot spiced wine. The volume can be easily adapted to different pot sizes. Thanks to the silicone cord, the spice colander is always ready to reach and can be easily affixed to the pot rim. The stainless steel bowls are interconnected by the silicone cord. So nothing gets lost in the kitchen. For laurel leaves, herbs and spices.

- Four stages for easily changing the volume
- Easy cleaning - divisible
- Stainless steel/Silicone
- Dishwasher-safe

### Tea Stick TEALEAF

Enjoying tea - easier than ever before!

Get the perfect tea every time with the practical tea stick. Thanks to the spoon function in the funnel, you can measure out exact amounts of different varieties of tea. Spoon in the tea straight from the bag or container. The cone-shaped form of the tea stick allows better flavor dispersal. After the tea flavor has fully emerged, put the tea stick back in the supplied holder. For cleaning the stick, you can simply remove the cap at the bottom of the stick. Stainless steel / plastic, dishwasher-proof.

**IAVIVO**  
Innovative Art of Tea

**12840**

### Tea Stick SQUARE

The tea stick makes for the pleasure of aromatic tea. Just fill with loose tea directly from the container, put it in a glass and let it steep. Stainless steel, dishwasher-proof.

**12850**

### Tea Infuser

Delicious tea because of the right measure. Tea infuser with practical, smooth touch handle. Easy to open to fill in tea. Stainless steel / plastic, dishwasher safe.

**15590**

### Tea / Spice Infuser Ball, ø 62,5 mm

Ideal for brewing tea or enriching soup, stews or mulled wine! Tea / Spice infuser ball with suspension chain. For loose tea leaves, bay leaves or spices. The suspension chain prevents the infuser sinking. Stainless steel, dishwasher safe.

15595

Tea / Spice Tongs, ø 50 mm

Ideal for brewing tea or enriching soup, stews or mulled wine! Handy tea / spice tongs – For loose tea leaves, bay leaves or spices. The hinged mechanism allows easy opening for filling and cleaning. Stainless steel, dishwasher-safe.

15500

Tea Sieve, 75 mm

Professional quality, specially strengthened mesh, diameter: 75 mm. Stainless steel, dishwasher safe.

12485

Lemon Juicer PRESCO

The pourer allows lemon juice to be perfectly portioned. Just screw the juicer into the lemon, squeeze the lemon and pour as required without any mess. Also suited for limes and oranges. Stainless steel, dishwasher-safe.

12740

Lemon Slice Squeezer, stainless steel

Ideal for squeezing a lemon / lime slice. The practical pouring lip serves to drip juice onto fish, meat or salad precisely. No squirting! The squeezer is equally helpful at tea time. Stainless steel - brushed outside, polished inside, dishwasher-safe.

## THE ART OF COFFEE

A delicious cup of coffee with its full bodied flavor is a wonderful thing to enjoy whether it be the first cup in the morning, that strong pick-me-up after lunch or to drink with a piece of cake. For many people coffee is the elixir of life, a godly and indispensable beverage. No wonder, that so many strive for obtaining that perfect cup. More and more coffee lovers now swear by the pour-over method – where the flavour of the finely roasted beans can best be appreciated. GEFU offers within its product range a new series of noble accessories for perfect coffee-making, from a coffee scoop through filters to filter inserts.

16000

Coffee Filter ANGELO

NEW

Pure aroma. Freshly brewed aromatic coffee.

Coffee drinkers know there is nothing to surpass a cup of freshly brewed coffee. The ANGELO coffee filter gives coffee its perfect taste. The practical, sophisticated stainless steel filter with a plastic insert to retain the water temperature rounds off the preparation of the ground brown beans, using paper filters in size 4 and smaller.

- Perfect tasting coffee
- For paper coffee filters in size 4 and smaller
- High-grade stainless steel with adapter for various types of coffee pots
- PP plastic insert to retain water temperature
- Stainless steel / plastic
- Dishwasher-safe

**12880**

**Gas Refill**

High-purity, technical synthesis gas (isobutane), DIN 32 621, Constant pressure during use of lighter. No need to regulate the flame, Optimum burning behaviour. Burns sparingly. No odour or soot. Thanks to its standardised valve, it fits onto almost all standard refillable lighters without the need for an adapter.

**12810****Corn cob Holders, 4 pcs.**

Use these corn cob holders to enjoy freshly cooked corn on the cob without getting greasy fingers. Just stick it in and turn at will. Dishwasher-safe.

**13430****Garlic Peeler**

With the garlic peeler it is easy to remove the skin of the garlic cloves without getting unpleasant smells on your hands. Silicon, dishwasher-proof.

**21890****Freezer and Fridge Thermometer****NEW**

Just hang or place it in the fridge or the freezer compartment and read the respective ideal temperature range in °C from the scale areas marked blue.

**21860****Fridge Thermometer**

Food-friendly and energy saving! The fridge thermometer is used to measure the exact temperature inside the fridge because maintaining the ideal temperature inside a fridge can ensure the optimum durability of the food and prevent any wasteful consumption of electricity.

**12330****Digital Timer**

With this practical digital timer every dish is bound to be a success. Adjustable to the minute and to the second (up to 99 min. and 59 sec.). Can be attached to any metal surface thanks to a magnet on the back, or supported on the yoke. Stainless steel / plastic.

**12300 / 12310****Timer large (ø 78 mm) / small (ø 61 mm)****NEW**

This convenient timer with a duration from 0 to 60 minutes can be wind up precisely to the minute. The heavily red marked display shows the remaining runtime. The magnet on the back of the timer allows easy attaching to magnetic surfaces. This is how you can always keep your timer within eyeshot.

**12320****Egg Pricker with Timer Tempico**

An effective combination of two products: an egg pricker with an egg timer. The sharp spike pierces the eggshell easily, and the integrated timer sets the exact boiling time not just for eggs. Continuously adjustable up to 60 min., the timer takes care of all dishes. Stainless steel / plastic.

**IAVIVO****12200****Egg Pricker**

The practical kitchen aid. Body made of high polish stainless steel, base made of black plastic.

**12210****Egg Pricker**

The practical kitchen aid. Body shine polished, matte base, stainless steel, dishwasher-safe.

**12460****Egg yolk Separator**

Easily separates egg whites and yolks. Stainless steel, dishwasher-safe.

**12355****Egg Cracker with Salt Shaker**

Place the egg cracker on the egg. Pull the ball and let it spring back to give the egg a crack. Remove the shell if necessary. The integrated salt shaker can be adjusted to a big or a small opening. For storing the salt shaker can be closed.

**12410**

**Jar Bottle Opener 4 in 1**

With bottle opener and can opener for condensed milk, guaranteed to easily open glass or bottle seals. Suitable for screw-off jar lids up to Ø 63 mm. Robust quality in stainless steel.

**13470**

**Can Opener CANDO**

The patented cutting tool safely opens the lid without sharp edges. The lid can be reused. Simple to use with an ergonomic grip and pincer function to remove the lid. Mix of stainless steel and high-quality plastic, easy to clean and hygienic.

13475 – Sales enforcing display, 12 pcs

**12830**

**Five-in-one Opener APERTO**

This opener is a real multi-talent, opening screw caps (Ø 27 mm - 31 mm), crown caps, glass lids, beverage cans and pull-ring cans. Plastic.

**12470**

**Glass jar Opener JARKEY**

The glass jar opener makes opening jar lids easier. The pressure seal is popped therefore making the lid easier to turn and remove. Plastic, dishwasher-proof.

\*limited distribution rights. Available only on request.

**12390**

**Tin Opener**

Tin opener with rotating cutting blade. It is operated by turning the rotating handle. Blade and wheels are made from hardened steel and guarantee a clean cut.

**12420**

**Can Opener**

Tried and true, simply practical, good for opening cans of various sizes.

**12450**

**Ceramic Hob Cleaner**

Invaluable for cleaning ceramic ranges. Stainless steel.

**12455**

**Recharge Blades Hob Cleaner**

3 replacement blades fit the glass scraper article number 12450

**22150**

**Tablecloth Clips**

Zinc-coated, set contains 4 pieces

**22350**

**Tablecloth Clips**

Stainless steel, set contains 4 pieces

**22450**

**Tablecloth Clips**

Plastic-coated, white, set contains 4 pieces

**22250**

**Tablecloth Clips for extendable tables**

Spring loaded, set contains 4 pieces, nickel coating. Suitable for tabletops with a profile from 19 to 45 mm.

# Presentation Systems

## 91750

### Wall Display

The wall display can be individually combined and comes with catchy slogans, wall hooks and glass shelves. Display assembly package as shown in the picture:

- 2 x base unit incl. 6 glass shelves
- 1 x 60 cm unit incl. 2 glass shelves
- 1 x display table

Lighting can be added.

## 91760

### Wall Display

Base unit of the wall display comes with catchy slogan, hooks and 3 glass shelves. Measurements: 1250 x 2510 x 550 mm

Lighting can be added.

## 91810

### GEFU-PROTECT Display Cabinet

Unrivalled sharpness requires special presentation! The new knife cabinet with two lockable folding glass doors slickly displays the products. The variety of knives are held in place with magnets and explained through the product information. Movable glass shelves display other GEFU products from the "cutting" range. Two-sided lighting. Measures 800 x 220 x 950 mm

## 91800

### Display Cabinet for the knife range RAN

With magnet strips, lockable, lit-up, includes product information, holds 10 knives. Designed for presentation stands, wall presentation and presentation columns. Measurements: 800 x 220 x 525 mm

### Shop floor Display

The shop floor displays can be individually combined. In this example the following units are combined:

- 2 x 91900.22 Base unit
- 1 x 91900.23 Top unit
- 1 x 91900.27 Head board
- 5 x 91900.28 Lighting elements

## 91900.22

### Shop floor Display Base Unit

The base unit of the shop floor display is supplied with illuminated logo, wall hook and 2 glass shelves. Lighting can be added. Measurements: 1000 x 1000 x 1400 mm

## 91900.23

### Shop floor Display Top Unit

The top unit is supplied with wall hook and 1 glass shelf. Lighting can be added.

## 91900.27

### Shop floor Display Head Board

The head board is supplied with a wall hook. Measurements: 700 x 710 x 1300 mm

## 91900.21

### Gourmet Corner

The gourmet corner is ideally designed for entrances or small areas. Wall hooks and glass shelves are supplied. The frame allows to change the picture. Measurements: 600 x 600 x 1400 mm
